

## Remote Paging Unit

### ECS-RPU

The ECS-RPU is a remote paging unit that provides a supervised microphone, 8 emergency message buttons, and 16 mappable audio switches. With dimensions of 17 ¾" x 11 7/16" x 3 ½", this lower profile remote paging unit is ideal for locations where the standard LOC won't fit.

The RA-2000 and RA-100 have the same height and flush mount depth as the ECS-RPU so if your installation requires a fully functioning LOC with annunciation the RA-2000 or RA-100 can be installed right next to the ECS-RPU for a sleek installation.

The IFP-100ECS and IFP-1000ECS can support a maximum of 7 ECS-RPUs or ECS-RCUs in any combination.

The IFP-2000ECS can support a maximum of 15 ECS-RPUs or ECS-RCU2000s in any combination.

### Features

- Smaller footprint than the ECS-RCU
- Supervised Microphone
- Connects to control panel via 4-wire SBUS and 2-wire VBUS
- Eight emergency communication message buttons
- 16 mappable audio switches

### Installation

The ECS-RPU can be surface or flush mounted.

### Approvals

NFPA 70, & NFPA 72: Central Station; Remote Signalling; Local Protective Signalling Systems; Auxiliary Protected Premises Unit; & Water Deluge Releasing Service.
