SILENT KNIGHT SEMINARS TO EDUCATE ON LATEST LIFE SAFETY CODE MANDATES

Renowned Engineers to Educate Specifiers, AHJs and Facility Managers on Low Frequency and Carbon Monoxide Requirements; Educational and Developmental Credits Provided

Northford, Conn., Feb. 23, 2015 – Honeywell (**NYSE: HON**) today announced its Silent Knight® fire systems business will host the [Cracking the New Code of Low Frequency and CO](#) seminar series Feb.-Apr. in major cities across the U.S. Each five-hour session will be lead by an industry-renowned engineer to educate architects, engineers, authorities having jurisdiction (AHJs), code enforcement officials and facility managers on the latest requirements and system design solutions for low frequency notification and carbon monoxide (CO) detection. The seminars are free-of-charge and attendees will receive continuing education units (CEUs) and continuing professional development (CPD) credits.

Each seminar will feature valuable information and insight from guest speakers Wayne Moore, PE, or Larry D. Rietz, SET, both of Jensen Hughes, one of the world's largest fire protection and life safety engineering firms. In addition to understanding NFPA 72-2010 mandates, which were enforceable January 1, 2014, attendees will learn various methods for integrating new technologies, such as low frequency sounders, CO and aspiration detection, and emergency notification into new and existing fire alarm systems.

To register for a local seminar, visit www.farenhyt.com.

EDITORS NOTE: [High- and low-resolution versions](#) of the Silent Knight seminars graphic, logos and other relative images are available in the online press room.

ABOUT SILENT KNIGHT

Silent Knight, part of Honeywell (NYSE: HON) Fire Safety, designs and manufactures commercial fire alarm and emergency voice systems. Its broad portfolio of products is available through security equipment distribution and a nationwide network of factory-trained, authorized Farenhyt Distributors. Founded in 1961, Silent Knight's manufacturing operations are based in the United States.
