

Effective Fire Protection for Guest Safety

Silent Knight knows that guest comfort and safety are among the highest priorities for hotels and the hospitality industry. Our fire alarm systems have proven reliability and flexibility to meet the needs of hotel facilities. Silent Knight gives you confidence in protecting your guests and minimizing nuisance alarms.

IFP-2000VIP

- Integrated voice evacuation in the fire alarm control panel simplifies the installation and operation of the system
- Emergency voice evacuation systems for reliable notification of guests and employees
- Flexible programming functions allow efficient installation and maintenance
- Distributed power technology enables more cost effective use of power for notification

IDP-Photo Detector and Sounder Base

- Individual rooms can have sound notification locally or system wide, giving you the flexibility to make the system most effective and non-interruptive
- Saves costs because system choices are done through programming vs. additional hardware

- *Fully addressable and networkable systems provide effective protection*
- *Minimized nuisance alarms with utmost detection accuracy*
- *Safe solutions for individual rooms and gathering areas offer flexibility and confidence*
- *Highly reliable system reduces maintenance costs*

by Honeywell

CO Detector

- Sense dangerous carbon monoxide in every room and get notification at the central control system, so help can be dispatched faster

Farenhyt Distribution

Silent Knight Systems are available through a limited distribution network of Farenhyt Engineered Systems Distributors.

SpectrAlert Advance Speakers, Horns, Strobes

- Be ADA compliant with combination Speaker-Strobes and Horn-Strobes
- SpectrAlert Advance speakers and speaker strobes provide a high fidelity and high volume sound output which makes it easier to get your emergency voice message across and understood by guests
- Easy installation reduces labor costs

Farenhyt Distributors:

- Are factory trained and certified
- Consist of a nationwide network of hundreds of Farenhyt Distributors
- Provide Design, Consultation, Installation, Test, Inspection and Maintenance services per codes, standards, and end user specifications.
- Purchase directly from Silent Knight

IFP-1000

- High capacity and flexibility make this control panel an effective choice for the hospitality industry
- Analog controls for detector sensitivity reduce false alarms
- Ease of programming reduces installation time for projects of all sizes

Silent Knight Fire Alarm Systems

Multiple national hospitality brands, as well as specialty independent hotel facilities, leverage the reliability of our fire alarm systems. Silent Knight offers a very wide range of products to meet the specific needs of your hotel facility, and they are expandable to grow with your business. This is one building system that you don't need to worry about.

IDP-PULL-DA

- Double action manual alarm actuating devices reduce accidental alarms

Retrofits

Silent Knight systems can work with existing wiring from an old system, saving you the cost of rewiring your building, and reducing disruption to your guests.

For more information contact your local Farenhyt Distributor or call 800-328-0103 or visit www.farenhyt.com.
