

# Effective Fire Protection for Guest Safety

Silent Knight knows that guest comfort and safety are among the highest priorities for hotels and the hospitality industry. Our fire alarm systems have proven reliability and flexibility to meet the needs of hotel facilities. Silent Knight gives you confidence in protecting your guests and minimizing nuisance alarms.

## IFP-2000ECS

- Integrated Emergency Communication System and Fire alarm control panel simplifies installation and operation of the system
- Up to 15 customizable emergency messages to ensure the right message is given to your occupants
- Flexible programming functions allow efficient installation and system maintenance
- Distributed power technology enables more cost effective use of power

## Fire/CO Detector

The IDP-FIRE-CO is an addressable device that provides both fire and carbon monoxide (CO) detection from a single detector.

- Saves on overall installation cost by eliminating the need to install multiple detectors
- Increase room aesthetics by reducing the number of devices
- Eliminates nuisance alarms by using true multi-criteria detection
- Separate CO detection signal
- Compatible with B200S intelligent sounder base

- **Fully addressable and networkable systems provide effective protection**
- **Minimized nuisance alarms with utmost detection accuracy**
- **Safe solutions for individual rooms and gathering areas offer flexibility and confidence**
- **Highly reliable system reduces maintenance costs**
- **Fire/CO detector available**

## SpectrAlert Advance Speakers, Horns, Strobes

- Be ADA compliant with combination Speaker-Strobes and Horn-Strobes
- SpectrAlert Advance speakers and speaker strobes provide a high fidelity and high volume sound output which makes it easier to get your emergency voice message across and understood by guests
- Easy installation reduces labor costs
- A/V devices for use with Emergency Communication Systems

## IFP-1000

- High capacity and flexibility make this control panel an effective choice for the hospitality industry
- Analog controls for detector sensitivity reduce false alarms
- Ease of programming reduces installation time for projects of all sizes
- Compatible with combination Fire/CO detector (IFP-FIRE-CO)

## IDP-PULL-DA

- Double action manual alarm actuating devices reduce accidental alarms

## Farenhyt Distribution

Silent Knight Systems are available through a limited distribution network of Farenhyt Engineered Systems Distributors.

### Farenhyt Distributors:

- Are factory trained and certified
- Consist of a nationwide network of hundreds of Farenhyt Distributors
- Provide Design, Consultation, Installation, Test, Inspection and Maintenance services per codes, standards, and end user specifications
- Purchase directly from Silent Knight

## Silent Knight Fire Alarm Systems

Multiple national hospitality brands, as well as specialty independent hotel facilities, leverage the reliability of our fire alarm systems. Silent Knight offers a very wide range of products to meet the specific needs of your hotel facility, and they are expandable to grow with your business. This is one building system that you don't need to worry about.

## Retrofits

Silent Knight systems can work with existing wiring from an old system, saving you the cost of rewiring your building, and reducing disruption to your guests.

**For more information contact your local Farenhyt Distributor or call 800-328-0103 or visit [www.farenhyt.com](http://www.farenhyt.com).**
